3. Gift Structure

The Programme offers **02 Special Gifts**, as follows:

Gift 01 – Most Compelling Study Tour Idea

01 International Study Tour will be awarded to the student whose Parent provides the response rated highest by the Organising Committee to the following question:

If BUV could send your child on a 1-week international study tour, what experiences and benefits would you expect them to gain from the tour? Which of these is most important to you, and why? (Max. 150 words)

Gift 02 – BUV Open Day 2026 Attendance Prediction

01 International Study Tour will be awarded to the student whose Parent provides the closest prediction of the total number of attendees at BUV Open Day, based on BUV's official check-in data.

Each International Study Tour:

- Is expected to last **01 week**;
- Will take place in one of the following destinations: **China, South Korea or Malaysia**;
- Has a value of up to **USD 1,600 per Study Tour**;
- Is available only to students who meet all requirements for receiving and using the Gift as set out in these Terms and Conditions.

The specific destination, schedule and Study Tour programme will be announced by BUV at a later date.

4. Evaluation and Selection Criteria

4.1. Gift 01 – Most Compelling Study Tour Idea

Responses will be evaluated by the Organising Committee based on the following criteria:

- **Value and Relevance of the Idea – 40%:** The response identifies relevant and meaningful benefits that an international Study Tour could offer students.
- **Specificity and Depth – 40%:** The response clearly explains why these benefits matter and what students could gain from the experience, rather than simply listing general expectations.
- **Parent Perspective – 20%:** The response reflects the Parent's genuine expectations, priorities or perspectives regarding their child's international learning experience.

There is no minimum word count. Parents are encouraged to provide a specific and sufficiently detailed response within a maximum of **150 words**.

4.2. Gift 02 – BUV Open Day Attendance Prediction

Participants will be asked:

How many guests do you think attended BUV Open Day on 4 October 2026? The total number of Open Day attendees will be determined based on the number of guests recorded through BUV's official check-in system, excluding BUV staff, event organisers and speakers.

The Gift will be awarded to the participant whose prediction has the smallest absolute difference from the actual attendance figure recorded in BUV's official check-in data, calculated to the nearest individual attendee.

If two or more predictions have the same smallest difference:

1. Priority will be given to the prediction that does not exceed the actual attendance figure;
2. If more than one participant submitted the same prediction, priority will be given to the valid Survey submitted earliest.

BUV's official check-in data will serve as the final basis for determining the result.

4.3. General Selection Principles

Each Parent may receive a maximum of **01 Gift** under the Programme.

Gift 01 – Most Compelling Study Tour Idea will be determined first.

If the participant selected for Gift 01 also has the best result in the attendance prediction category, that participant will receive Gift 01. Gift 02 will then be awarded to the next eligible participant according to the ranking and selection principles set out in Section 4.2.

5. Conditions for Receiving and Using the Gift

The Gift cannot be redeemed for cash, transferred or carried forward. BUV reserves the right to offer the Gift to the next eligible recipient where the timing and organisation of the Study Tour allow.

Any taxes, fees or other financial obligations (if applicable) arising from the receipt or use of the Gift will be handled in accordance with applicable laws and regulations. BUV will inform and provide guidance to the Gift recipient regarding any such obligations, where applicable.
